SUMMARY

As a motivated and detail-oriented student pursuing a degree in Computer Science and Engineering, I possess a robust foundation in software development and machine learning. My experience is rooted in academic projects and leadership roles, showcasing a proven ability to adapt swiftly, master new technologies, and deliver effective solutions. I am eager to bring my technical expertise and problem-solving capabilities to a dynamic engineering or technology-focused organization, where I can contribute meaningfully and continue to grow professionally.

Skills

Languages:

- *HTML/CSS*
- *Python*
- *SQL*

Frame works & Libraries:

- *Flask*
- *Streamlit*
- *Scikit-learn*
- *SHAP*
- *LIME*
- *Pandas*
- *Matplotlib*
- *Seaborn*

Tools & Platforms

- *GitHub*
- *Google Colab*
- *Jupyter Notebook*
- *VScode*
- *SSMS*
- *MongoDB*

EXPERIENCE

Thrive-Africa

March 2025

Developed Bank Fraud Detection System

- Spearheaded a team of 11 engineers in crafting a cutting-edge Hybrid Machine Learning model, integrating both supervised and unsupervised techniques, enhanced with fairness and explainability tools.
- Managed the project's workflow using Google Colab, ensuring efficient development and collaboration.
- Delivered clear and impactful presentations of the model's results, demonstrating its effectiveness in Credit Card Fraud Detection.

School Project

2024

Developed Microfinance DMS

- Developed a robust Microfinance Data Management System with SQL and Flask, ensuring high security and scalability.
- Engineered user-friendly dashboards for efficient financial record and client data management.
- Produced extensive documentation to support both academic research and professional application.

RiseUp Empowerment

2024

Developed Foundation Website

- Engineered a responsive, user-friendly website for a social impact foundation, emphasizing intuitive UI/UX design.
- Streamlined donation processes, enhancing user engagement and conversion rates.
- Optimized website performance for seamless mobile

EDUCATION

BSc.Computer Science-and Engineering

UNIVERSITY OF MINES ANDD TECHNOLOGY

Tarkwa, Ghana
